LDT Disclaimers:

**POC, COVID-19/Flu A&B Rapid Ag Detection:**

A negative test result does not eliminate the possibility of SARS-COV-2 and influenza A&B infection and should be confirmed by molecular testing if necessary for patient management.

**POC, COVID-19 Rapid Ag Detection:**

Any negative Ag test should be confirmed with PCR.

**POC, Glucose:**

The Glucose testing using Accu-check Performa was developed and its performance characteristics determined by the Pathology and Laboratory Medicine Department at AUBMC. It has not been cleared or approved by the FDA. The laboratory is CAP accredited and qualified to perform high-complexity testing. This test is used for clinical purposes. It should not be regarded as investigational or for research.

**POC, Tramadol:**

"Instant-View "Tramadol Cassette test was developed and its performance characteristics determined by the Pathology and Laboratory Medicine Department at AUBMC. It has not been cleared or approved by the FDA. The laboratory is CAP accredited and qualified to perform high-complexity testing. This test is used for clinical purposes. It should not be regarded as investigational or for research.

*General Note for all POC Drug of Abuse tests and POC Tramadol*  
*Drugs of abuse screening: AUBMC does not assume any responsibility or liability whatsoever with respect to the genuineness or condition the urine specimen from whom it is reported to be taken.*  
*It is also being clearly agreed and understood that the immunoassay test for drug abuse is simply carried out as a screening test for clinical purposes and any results thereof need to be further confirmed by other analytical procedures; it is further agreed and understood that AUBMC assumes no responsibility or liability for the consequences, if any, resulting from the use of the test or the interpretation of the findings thereof and that AUBMC is and shall remain independent of the purpose for which the performance of the test is requested or the use for which the test is intended.*
